

## **Prophecy to the United States 12-7-08**

The Lord says this season that is coming upon your land is a season of revival to the United States. I am going to bring revival through judgment.

I warn you before it comes to pass and when you see it happen, you will be awestruck with fear, but do not fear. But in the next few months I am going to begin to move upon this land in a way that I have been speaking to your heart. It is through revival but yet the revival will come through judgment and the judgment will be five fold upon this land and will begin in the next few months.

In the days to come, I am going to begin to bring a judgment upon this land and there will be many, many deaths. These deaths are going to be by several different plagues that I am going to bring upon this nation. There will be various plagues in different places and these plagues will come upon this nation all at one time. When these plagues come, then there is going to be a fear that will come upon the people of this land and they won't know where to turn.

This is the time of preparation. Where you have not been one who would go out and prepare and store up food and do this and do that, I am going to begin to change and shift your priorities so that when the days to come, you will have provision for you and your house and for those who come around and are in need. I am telling you two things are going to happen. One – there is going to be a plague that hits this land. There is going to be a revival of people turning back to the Lord because of fear. During the revival at that time, prices are going to begin to soar upon this land. You have not seen anything. You are going to see massive price increases for every commodity that you could possibly imagine. All this is going to come in the near season. It is going to happen very fast. It will be that the money you have won't buy anything. So I have prepared this time and season for preparation for your house. This is a season for storing. This is a season to store up and prepare for what is coming. The next few years in this land are going to be a time of revival, a time for high prices and a time when people are going to fear and turn back to the Lord. It is going to be a time of miracles – not just miracles for healings but miracles for food and miracles for finances. The Lord says I am going to do all sorts of miracles.

Many of the mainstream churches are going to fold and go under. Even though there is going to be revival and people are going to flock back into the church, the people are going to know there is a hollowness and a shell of religion in some of these churches and they are going to seek something and someone who will tell them the truth and seek those that stand upon My Word and those that I move upon to manifest My miracles. These are going to be the people of God whom they listen to.

I have set some aside to know My faith and power and righteousness so that when these things begin to come, you will not be afraid to speak out and see plates of food multiplied before the people and it shall be many will come and be fed. They will come to Me because their bellies are filled but I shall present to them the gospel. The Lord says I am going to cause many in the days to come to receive Me. You are going to see all those people and all those things I have promised come to pass in the next few years. The Lord says this is the first judgment that is going to come upon this nation. It will be five-fold and focused in five locations. This will bring about a massive revival. Dur-
